

# ÅF and Pöyry are now one company

We are excited to share the news that from February 2019, ÅF and Pöyry are one company.

This means that we are more than 16,000 experts within engineering design and advisory services around the world. We create solutions to support our clients worldwide to act on sustainability as well as the global trends of urbanisation and digitalisation. We are devoted experts within the fields of infrastructure, industry and energy operating across the world to create sustainable solutions for the next generation.

In times of great change and challenge, you have to be clear upon your way forward, and stay consistent and brave in your conviction. As one company, ÅF Pöyry will take our joint abilities and possibilities to the next level. Next level for our businesses in terms of delivered value. Next level for our client relations, by combining our expertise and insights. And next level for all employees in terms of personal development, say Jonas Gustavsson, CEO and President, ÅF Pöyry.

## **Committed to creating an excellent customer experience**

We remain fully committed to creating an excellent client experience and we

will ensure that you, as our customer, will continue to receive the same great service as you have come to know. Your point of contact remains the same for now.

Do you want to be part of this journey?
